NOTES TO FINANCIAL STATEMENTS

Summary of Significant Accounting Policies

A. Accounting Practices –

Basis of Presentation – CareSource Michigan’s (CSM’s) statutory-basis financial statements are presented on the basis of accounting practices prescribed or permitted by the State of Michigan, Office of Financial and Insurance Regulation (“OFIR”). OFIR requires that insurance companies domiciled in the State of Michigan prepare their statutory financial statements in accordance with the NAIC Accounting Practices and Procedures Manual (NAIC AP&P) subject to any deviation prescribed or permitted by OFIR Accounting practices and procedures of the NAIC, as prescribed or permitted by the insurance department of the applicable states of domicile, comprise a comprehensive basis of accounting other than accounting principles generally accepted in the United States (GAAP). No material change has occurred since the Annual 2010 filing.

Investments: Bonds not backed by other loans are principally stated at amortized cost using the interest method. Single class and multi-class mortgage-backed/asset-backed securities are valued at amortized cost using the interest method including anticipated prepayments. Prepayment assumptions are obtained from dealer surveys and are based on the current interest rate and economic environment. The retrospective adjustment method is used to value all such securities. Realized capital gains and losses are determined using the first in first out method. CSM does not engage in subprime residential lending.

Nonadmitted Assets: Certain assets designated as “non-admitted,” principally prepaid expenses are excluded from the accompanying balance sheets and are charged directly to unassigned surplus. In accordance with GAAP, such assets are included in the balance sheet to the extent that those assets are not impaired.

Reinsurance: Unpaid claims liabilities and premiums received in advance ceded to reinsurers have been reported as reductions of the related balances rather than as assets as would be required in accordance with GAAP.

Statements of Cash Flows: Cash, cash equivalents, and short-term investments in the statements of cash flows represent cash balances and investments with initial maturities of one year or less. In accordance with GAAP, the corresponding caption of cash and cash equivalents includes cash balances and investments with initial maturities of three months or less.

The effects of the foregoing variances from GAAP on the accompanying statutory-basis financial statements have not been quantified.

Other significant accounting practices are as follows:

Investments Bonds and common stocks are stated at values prescribed by the NAIC, as follows:

Bonds not backed by other loans are principally stated at amortized cost using the interest method.

Single class and multi-class mortgage-backed/asset-backed securities are valued at amortized cost using the interest method including anticipated prepayments. Prepayment assumptions are obtained from dealer surveys and are based on the current interest rate and economic environment. The retrospective adjustment method is used to value all such securities.

Realized capital gains and losses are determined using the first in first out method. Short term investments include investments with remaining maturities of one year or less at the time of acquisition and are principally stated at amortized cost. CSM does not engage in subprime residential lending.

Other than temporary impairments - Management regularly reviews the value of CSM’s investments. If the value of any investment falls below its cost basis, the decline in value is analyzed to determine whether it is an other-than-temporary impairment. The decision to record an impairment loss incorporates both quantitative criteria and qualitative information. The Company considers a number of factors including, but not limited to: (a) the length of time and the extent to which the fair value has been less than book value, (b) the financial condition and near term prospects of the issuer, (c) the intent and ability of CSM to retain its investment for a period of time sufficient to allow for any anticipated recovery in value, (d) whether the debtor is current on interest and principal payments and (e) general market conditions and industry or sector specific factors.

Cash, Cash Equivalents, and Short-Term Investments - The fair values of cash, cash equivalents, and short-term investments are based on quoted market prices.

Pharmacy Rebate Receivable- Pharmacy rebates are attained based on agreements between CSM and a third party administrator for prescription drugs. Pharmacy rebates are admitted if accrued or invoiced within 90 days of the reporting period. Pharmacy rebates are non-admitted if invoiced over 90 days prior to the reporting period.

Unpaid Claims and Unpaid Claim Adjustment Expenses - Claims unpaid and unpaid claims adjustment expense liabilities represent management’s best estimate of the ultimate net cost of all reported and unreported claims incurred through June 30. Significant assumptions in the estimation process includes historical experience and trends in benefit costs, sensitivity, utilization, provider contract terms, adjudicated claims, payment cycles and the frequency and severity of claims incurred, all of which can vary by segment and type. Although considerable variability is inherent in such estimates, management believes that the reserves for unpaid claims are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known; such adjustments are included in current operations.

Premium Revenue - Substantially all of CSM’s premiums earned are related to a contract with the Michigan Department of Community Health. The contract was effective October 1, 2009 for three years with three additional one year options. Cancellations or nonrenewal of these contracts would affect operating results adversely. Premiums are due monthly and are recognized as revenue in the period in which CSM is obligated to provide services to its members. Premiums received in advance are recorded as unearned premium revenue. In accordance with Statement of Statutory Accounting Principle (SSAP) No. 61, Life, Deposit-Type and Accident Health Reinsurance, payments to a reinsurance carrier for a stop-loss arrangement are deducted from premiums earned.

Hospital and Medical Benefits Provided - CSM’s contracts with various health care providers for the provision of certain health care services to its members. Participating physicians and hospitals are paid contractually established rates for services to members. The cost of health care services provided or contracted for is accrued in the period in which it is provided to a member, based in part, on estimates. Estimated liabilities for health care services provided to members of CSM include claims reported and estimates (based upon historical experience) of health care services incurred but not reported (IBNR). These estimates are periodically reviewed and are adjusted in accordance with the latest available information in that period in which the information becomes available.

NOTES TO FINANCIAL STATEMENTS

Reinsurance - Certain premiums and benefits are ceded to another insurance company under a reinsurance agreement. The ceded reinsurance agreement provides CSM with increased capacity to write larger risks and maintain its exposure to loss within its capital resources. CSM remains obligated for amounts ceded in the event that the reinsurer does not meet their obligations.

Neither CS nor any of its related parties control, directly or indirectly, any reinsurer with whom CSM conducts business. CSM does not have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel the agreement.

B. Use of Estimates -
The preparation of financial statements in accordance with statutory accounting principles requires management to make estimates and assumptions that affect the reported amount of admitted assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The health care industry is subject to numerous laws and regulations of federal, state and local governments. Compliance with these laws and regulations can be subject to government review and interpretation, as well as regulatory actions unknown and unasserted at this time. Penalties associated with violations of these laws and regulations include significant fines and penalties, exclusion from participating in publicly-funded programs, and the repayment of previously billed and collected revenues.

From time to time we are involved in legal actions in the ordinary course of business, some of which seek monetary damages. Some lawsuits and claims are covered by insurance and others are not. The outcome of such legal actions is inherently uncertain. Nevertheless, we believe that these actions, when finally concluded and determined, are not likely to have a material adverse effect on our financial position, results of operations, or cash flows.
